**Required vaccines for school-aged children available free of charge at the Cleveland County Health Department while supplies last**

(Shelby, NC)—For this school year the state of North Carolina has provided a special limited allotment of required vaccines for school-aged children (kindergarten-8th grade). These vaccines are currently available at the Cleveland County Health Department at no charge. Once the state allotment for our county is depleted, insured individuals will be required to provide their insurance card and copay if applicable. The immunization clinic administers vaccines Monday-Friday, 8:00am-4:30pm with no appointment necessary.

For additional information call 704-484-5154 or visit [www.clevelandcounty.com/cchd](http://www.clevelandcounty.com/cchd). Have your child vaccinated today.
