Brief Description Of Services Offered

Hospice is a special way of caring for people with a life-limiting illness and their families. Hospice helps patients achieve physical and emotional comfort so that they can concentrate on living life fully. Hospice care is available to anyone with any life-limiting illness and a life expectancy of 6 months or less. ANYONE can make a hospice referral. We provide a team approach to care - hospice medical doctor, nurse, social worker, chaplain, hospice aide, grief counselor, and volunteers. We focus on pain control and symptom management and offer grief support to family members after the death of their loved one. Patients who have Medicare, Medicaid, and some private insurance policies may be eligible for a special hospice benefit. This Hospice Benefit covers hospice staff visits, medications pertaining to the hospice diagnosis, routine medical supplies, home medical equipment, in-home lab work, oxygen, short term inpatient and respite care, and grief counseling. Hospice Cleveland County is a not for profit organization serving patients regardless of reimbursement source or ability to pay.
