

## Reclassifying Alcopops as Distilled Spirits in Your State

In California, we were able to estimate the **enormous costs of underage alcopop consumption**. We used this data to educate policymakers, the media, and others. Now we have made similar estimates for the other 27 states where current law indicates that alcopops should be classified as distilled spirits. Doing so would make these products less available to youth (depending on the state law), either by removing them from grocery and convenience stores, raising the taxes (and hence prices), or both.

### The Cost of Underage Alcopop Consumption

State	Money	Deaths	Incidents of Harm*
Arizona	\$219,090,000	11	10,797
Arkansas	\$116,140,000	6	4,275
Colorado	\$207,870,000	10	8,555
Connecticut	\$104,880,000	5	4,056
Delaware	\$29,020,000	2	1,053
Florida	\$623,000,000	30	23,857
Hawaii	\$36,000,000	2	1,796
Idaho	\$38,500,000	2	1,456
Iowa	\$98,390,000	5	3,722
Kansas	\$109,140,000	6	4,210
Kentucky	\$105,370,000	5	4,036
Louisiana	\$184,510,000	10	7,302
Maryland	\$210,730,000	9	7,501
Massachusetts	\$238,900,000	11	8,151
Michigan	\$342,600,000	16	12,960
Mississippi	\$90,350,000	4	3,418
Nebraska	\$75,580,000	4	2,761
Nevada	\$86,380,000	4	3,853
New Jersey	\$246,820,000	13	9,853
New York	\$548,560,000	24	20,121
<b>North Carolina</b>	<b>\$207,090,000</b>	<b>10</b>	<b>7,834</b>
Ohio	\$449,950,000	21	17,021
Oklahoma	\$131,500,000	7	5,203
Rhode Island	\$28,810,000	1	1,223
South Dakota	\$59,370,000	5	1,636
Texas	\$877,430,000	39	37,801

\* Harms include traffic accidents, suicides, violence, poisonings and fetal alcohol syndrome, among others.
