2. Overview

Cleveland County would like to offer county employees daycare services and a hot lunch cafeteria as an employment benefit. There is currently no county building equipped or optimally located that could provide these functions.

The county does have available properties where a new building could be built to suit. These properties are on or near located where the highest population of Cleveland County employees are, at 200 S. Post Rd.

The new building would be approximately 5,000 sq. ft. The daycare center would accommodate 100 children—from 6-week-old babies to kindergarten age children with 10 daycare staff. The cafeteria would serve hot food serviced by a contracted food service company. The cafeteria would be able to seat 80 people.

Cleveland County will partner with a cafeteria and food vending company to assist the A&E firm with the cafeteria layout design and equipment requirements.

This project is considered a fast-track project to be commissioned and functional by July 31, 2023 so training can take place. The project could potentially be developed into a Construction Management at Risk project to expedite the construction of the site.

The chosen firm will provide professional services for development and cost estimates to keep constructions costs in the proposed budget.

Cleveland County Daycare and Cafeteria Team will choose a qualified firm using a two-step process—select firms qualified to provide such services on the basis of demonstrated competence and qualifications and an interview meeting where the firm presents their proposal and team.

The Daycare and Cafeteria Team will rate the firm based on, but not limited to, the criteria below:

- Overall reputation of the firm/team
- Key team members — experience and qualifications
- Project references specific to this type of service
- Experience with applicable regulatory agencies and permitting
- Experience with providing these services to local governments
- General project understanding and approach
- Innovative and/or alternative methods, designs, software, collaboration, etc.
- Proposed schedule
- Unique qualities that would make firm/team best suited for the project.

Cleveland County will use the standard AIA Document B101™—2017 for the basis of the contract agreement with a terms and conditions addendum as needed.
